Marfeel is looking for a Java Jedi:

This is you:

- Your life begin and end with a slash.
- You feel like you have a mission not just a task.
- You understand iterative development, a day without pushing code makes you sad.
- You're not afraid to crack open an existing code base and bend it to your will.
- Self-starter is your middle name. You can take or come up with a high-level idea and run with it.
- You have a real understanding of building products that work at web scale.
- You can't imagine your life without a whiteboard, open-source boards and definetly CODE.
- You Know the importance of being part of an universe where all the departments need each other and work together for a mutual goal.
- As a software craftsman you will advocate and practice pair-programming, test-driven development, refactoring, collective-code ownership, continuous integration, and refactoring.
- International team player.
- Eager for knowledge.
- Lots of stamina, you get bored if you don't have nothing to do.
- Hands-on and proactive.

Experience:

- Can solve technical problems equally well with OO, DOM oriented.
- Solid understanding of the web technology stack.
- 5+ years experience building software that works at web scale.
- Solid experienced and understanding of OO principles such as SOLID.
- You are well versed in clean code and practices such as code by intent.
- You are experienced in applying design patterns and maintaining simple designs.
- You have experience working within a multifunctional team and collaborating with your peers.
- Fluent english it's a must.
- Strong experience in REST, Spring IoC, Spring MVC, Spring Data.
- Familiarity with parallel code execution.

We will be impressed if:

- AKKA.
- And you know the importance of UX, your peers and also.
- Machine learning and scientific libraries (Mahout).
- Natural language processing.
- Experience with AdServing.
- Spring social, Spring Security.
- Hadoop.
- You have experience with various AWS services and understand the challenges of deploying large applications in the cloud.
- Deployment technologies.
- Nginx, Tomcat, MongoDB, Quartz.
- AngularJS.

This will be you as part of the Marfeel team:

- Working on an international, multicultural and talented team and enjoying our sunny terrace.
- We are more than 22 different nationalities so, you will not get lost in translation.
- Flexible working-time.
- Free commodities (coffee, tea, juices,etc).
- Ping-pong tournaments.
- Team building events!
- Training, books, all you need to feel the empowerment.
- And, Referral Bonus if you bring other talented people like you.
